Pronunciation bank

Weak and strong forms

do / does (Lesson 1.2); have / has (Lesson 2.2); was / were (Lesson 8.3)

Auxiliary verbs like do / does, have / has and was / were can be pronounced in two different ways. We usually use weak pronunciation in affirmative sentences and questions and strong pronunciation in short answers.

She was watching TV when I arrived.

Were they all watching TV? Yes, they were.

Contractions

will (Lesson 6.1)

When we speak, we often make contractions with subject + will in affirmative sentences (but not in negative sentences, questions or short answers).

Will it be sunny tomorrow? No, I think it’ll rain.

Stress

Sentence stress (Lesson 1.1)

When we speak, we stress ‘content’ words like nouns and main verbs, which give us important information. ‘Non-content’ words (e.g. pronouns, auxiliary verbs, articles) are often unstressed.

When we arrived at the station, the train was leaving.

Emphasising important words (Lesson 4.1)

We can put extra stress on certain words which we want the listener to focus on.

My sister is much taller than me. (We want to emphasise the big difference.)

Schwa on unstressed syllables (Lesson 7.2)

Unstressed syllables are often pronounced with a schwa /ə/. avoid /əvɔːd/, remember /rɛməbər/, reliable /rɪləˈbəl/

Phrasal verbs (Lesson 8.2)

We usually stress the particle in phrasal verbs.

look after; look up to; come across; put up with

Changing word stress (Lesson 9.2)

We sometimes change the main stress on different words in the same word family.

employer / employee; national / nationality

Consonant to vowel (Lesson 3.1)

We usually link words that end in a consonant sound with words that begin with a vowel sound.

My parents are coming for dinner at eight.

Consonant to consonant (Lesson 5.1)

When two consonants are next to each other, one of the consonants is often not pronounced.

You shouldn’t smoke. You can’t come in here.

Connected speech

Fillers

anyway (Lesson 10.3)

When we tell a story, we often use anyway to show we are returning to the main story after giving some extra, background information.

John arrived really late at work yesterday ... John is the one who started at our office about three months ago.

... Anyway, he walked in at about 9:45 and seemed very upset about something.

well, so, erm (Lesson 11.2)

In conversations, we often use well, so and erm when we want time to think about what we are saying (and we don’t want someone else to start speaking). We often make these words a bit longer to stop someone from interrupting.

A: Where shall we go for lunch?

B: Erm ... , well ... , we could go to the café on the hill.

Intonation

Questions (Lesson 2.3)

There are two intonation patterns for direct questions.

Our voice usually goes up at the end of Yes / No questions.

Are you from Australia?

Our voice usually goes down at the end of Wh- questions.

Where are you from?

Indirect questions (Lesson 4.3)

We use polite intonation with indirect questions. Our voice starts high, then falls a lot and rises a little at the end.

Could you tell me where the post office is please?

Conditional sentences (Lesson 7.1)

In conditional sentences, our voice goes up at the end of the first clause and down at the end of the sentence.

If you work hard, you’ll pass your exam.

Showing interest (Lesson 10.1)

We vary our intonation to show interest in what someone is saying. Our intonation is flat when we are less interested.

Really? (interested)  Fantastic! (not interested)

Fillers

anyway (Lesson 10.3)

When we tell a story, we often use anyway to show we are returning to the main story after giving some extra, background information.

In 1995, when Shakira was only nineteen, she started her own charity, using the money she earned. 2.3 The Mozart effect

Grammar questions

Can do ask different types of questions

The Mozart Effect®

1. Some people believe that music is much more than entertainment. Don Campbell, for example, is an expert on *The Mozart Effect®* and he says that all kinds of music, from Mozart to jazz, from Latin to rock, can affect our learning and our health. We all use music to help us relax after a busy day at work. However, Campbell argues that music can also reduce the stress of being ill, especially by reducing pain, and the director of Baltimore Hospital says that thirty minutes of classical music has the same effect as ten milligrams of the painkiller Valium.

2. Campbell also believes that music can help you concentrate, but that you need the right kind of music for your mood. And you need to listen for about ten minutes before you start studying. Perhaps your mind needs relaxing or maybe you are tired and you want to feel more energetic – so you should choose the appropriate music to help you. He says that you can use many different kinds of music to help you concentrate, but that Mozart’s music is popular because it is very organised and it makes your brain more alert and imaginative.

3. Music not only makes you more intelligent, but it can improve your memory, too. In one study, students who listened to Mozart before doing a test got much higher marks than those who didn’t. Many studies also show that children who learn to play a musical instrument before the age of twelve have better memories for the rest of their lives.

Past simple

Regular verbs

+ I played jazz music all day yesterday.
- He didn’t finish his exams.
? Why did you wait for so long?
 Did you like the last Coldplay CD?
 : Yes, I did. /No, I didn’t.

Verbs to be

+ I/He/She was at home this morning.
- You/We/They weren’t on holiday last week.
? Was she at school yesterday?
 Were they happy about that?
 : Yes, he was. /No, he wasn’t.

We use the Past Simple for completed actions in the past. We use the same form for all pronouns (but was/were for the verb to be).

We add -ed to regular verbs to make the past form.

We use didn’t (did not) to make the negative.

See irregular verbs table page 72

Present Perfect Simple: experience

Present Perfect Simple: has/have + past participle

+ I/You/We/They have/haven’t heard this song?
- She/He/It have/haven’t heard this song?
? Have I/you/we/they ever heard this song?
 Yes, I have./No, I haven’t.
 Yes, he has./No, he hasn’t.

We use the Present Perfect Simple to talk about an action or experience at some point in the past until now. The specific time is not important or is not known.

We don’t use the Present Perfect Simple with past time expressions, e.g. last night, two weeks ago.

We use the Past Simple to talk about an action or experience at a specific time in the past.

A: I’ve visited eleven countries in my life.
B: Have you ever been to Asia?
A: Yes, I have. I went to Thailand in 2001.

ever and never

We often use ever and never with the Present Perfect Simple when we are talking about experience.

ever (in questions) means at any point up until now.

Have you ever broken your leg?

never means at no point in the past up until now.

I’ve never tried Japanese food.

With never, we use the verb in the affirmative (NOT in the negative).

She hasn’t been to Italy.

Questions

There are two main types of questions.

Yes/No questions: Do you like watching football?

Wh-/How questions: What did you do last weekend?

The most common Wh- question words are:
what, where, when, who, why, which, whose and how.

We often put Wh- question words together with other words, e.g. what time, what kind, how much, how many, how often, how long, which one.

Word order

With the Present Simple and Past Simple tenses, we put do/does/did before the subject + infinitive.

Do you like computer games?

We put other modal or auxiliary verbs (can, have, would, be, etc.) before the subject + verb.

Can you play the piano?

When the main verb is to be, we put the verb before the subject. Where were you yesterday?

What do you like doing at the weekend?

I like getting up early on Saturdays – usually at about 7:00 a.m. I have coffee and toast for breakfast and, at the same time, I turn my computer on. I like checking my emails regularly because I get so many of them. I have a very busy job, so I sometimes go to work on Saturdays. The office is quiet and I quite like working on my own. On Sundays, I like going ice skating and I sometimes go bowling with some friends in the new place not far from the centre of Krakow. But I do some work in the afternoons, too. My job is really interesting, so I don’t mind working a lot. My girlfriend says I work all the time – but I prefer working to doing nothing!

Marek Kowalczyk, Krakow, Poland

I don’t like getting up early at the weekends, so I usually have a lie-in – sometimes until about 10:30 a.m. I absolutely love having a big breakfast on Saturdays. I don’t have many hobbies and I really hate the gym or doing exercise, but I sometimes go to a park in the afternoon. There are some nice parks in Manchester and I like meeting friends and just lying on the grass and doing nothing. I’m not very keen on going out on Saturday evenings. Sometimes I go to the cinema – but mostly I stay in, watch a DVD at home and have a take-away pizza. Sundays are similar to Saturdays for me – I like relaxing, getting up late and watching TV a lot.

Henry Rogers, Manchester, UK

I can’t stand doing nothing, so I get up early on Saturdays. I really like having breakfast in a café, so I take a bus into town at about 9:00 a.m. I’m quite keen on art, so after breakfast I often go to an exhibition with some friends. I do different things on Saturday evenings. I don’t like staying out late or going clubbing, but I love going to a concert or to the theatre. Actually, my favourite evening is going to a musical with friends. On Sundays, I go for a walk. Sometimes, I go on a guided walk around a different part of my city. I like learning about the history of Barcelona – it’s a really interesting city.

Grammar

New Total English places a lot of emphasis on providing learners with the grammar ‘building blocks’ they need to communicate confidently. It aims to give learners a thorough foundation in grammar and, at the same time, provides plenty of structured and free practice. Each unit deals with grammar in a broadly similar way:

- **Clear presentation and analysis**
  Each lesson has a clear grammar aim which is stated at the top of the page. Lessons are double-page at lower levels and triple-page at Intermediate and above. New language items are presented in context via reading and/or listening texts and grammar rules are then analysed and explained via the Active grammar boxes, which are a key feature of each lesson. New Total English takes a ‘guided discovery’ approach to grammar and learners are actively invited to think about grammar and work out the rules for themselves.

- **Varied, regular practice**
  Once learners have grasped the important rules, all new language is then practised in a variety of different ways so that learners are able to use the grammar with confidence. Practice activities include form-based exercises designed to help learners manipulate the new structures as well as more meaningful, personalised practice. Additional grammar practice exercises can be found in the Review and practice sections of the Students’ Book and in the practice exercises in the Workbook. Photocopiable grammar activities are also available on the ActiveTeach and on the Resource Disc which accompanies the Teacher’s Book.

- **Easily accessible reference material**
  In addition to the explanations contained in the Active grammar boxes, there is a Reference section at the end of each unit which provides a summary of the grammar rules as well as extra language notes and examples. Audio recordings of the rules and examples are available on the ActiveBook and ActiveTeach components.

Vocabulary

New Total English recognises the central role that vocabulary plays in successful communication. The emphasis is on providing learners with high-frequency, useful vocabulary which is regularly practised and revised. New vocabulary is presented and practised in a variety of different ways.

- **Lead-in pages**
  Each unit starts with a Lead-in page which provides a springboard into the topic of each unit. Featuring a variety of attractive picture prompts and related exercises, the Lead-in pages are designed to help teachers elicit vocabulary that learners already know as well as pre-teach essential vocabulary for the rest of the unit.

- **Topic-based vocabulary**
  Each unit focuses on useful vocabulary relating to the topic of the lessons as well as vocabulary arising from the listening and reading texts. Items are generally presented in context and practised through a variety of exercises.

**Active grammar**

Most sentences in English are active.

* active subject + verb + object

1. Americans ______ (spend) more than $110 billion on fast food every year.

We use the passive form when ...

- **who/what causes the action is unknown or not important.**
- **we want to emphasise the passive subject (at the beginning of the sentence).**

2. Sixty-five million fast-food meals ______ (eat) in the US every day.

* passive subject + am/is/are (not) + past participle

**Vocabulary**

- **music**
  Complete the sentences with the singular or plural form of the words from the box.

  **choreus, duet, flop, hit, lead singer, lyrics, solo, soundtrack, theme song, top of the charts**

  1. Another Way to Die is a ________ by Alicia Keys and Jack White.
  2. Jack White is the ________ of The White Stripes.
  3. All the other Bond songs are ________ — with just one singer.
  4. The ________ are really good and have a strong message.
  5. The first two Bond films had great ________.
  6. After Goldfinger, people expected a great ________ in every film.
  7. Many Bond songs got to the ________.
  8. Not all Bond songs were ________.
  9. Die Another Day wasn’t a complete ________.
  10. It had a really catchy ________.

Additional vocabulary practice is provided in the Review and practice sections of the Students’ Book and in the practice exercises in the Workbook. Photocopiable vocabulary activities are also available on the ActiveTeach and on the Resource Disc which accompanies the Teacher’s Book.

- **Vocabulary pages (Intermediate and above)**
  At the lower levels there is a lot of emphasis on building learners’ knowledge of high-frequency words and phrases as well as common lexical sets. Learners are introduced to collocation work at a very early stage and from intermediate level onwards, there is a greater emphasis on vocabulary systems and word-building.

- **Vocabulary Trainer**
  Each level of New Total English is accompanied by a Vocabulary Trainer. This unique online learning tool focuses on the key vocabulary in each unit and helps learners memorise new words and phrases.
Speaking

The key aim for most learners is spoken fluency. However, most learners find it difficult to talk about topics which hold no interest for them and many cannot express themselves easily without support. New Total English develops spoken fluency in a number of ways – by giving learners discussion topics they want to talk about; by setting up situations where they are motivated to communicate in order to complete a specific task; by providing clear models and examples of how to structure discourse and by encouraging them, wherever possible, to express their own ideas and opinions.

- Fresh angles on familiar topics
Topics in New Total English have been chosen for their intrinsic interest and relevance. Obscure topics, i.e. those which are only likely to appeal to a minority audience, have been avoided and discussion questions have been deliberately chosen to encourage learners to draw on their own lives and experience. Inevitably, many of the topics have been covered in other ELT coursebooks but wherever possible, we have tried to find a fresh angle on them.

- Structured speaking activities
Many of the lessons in New Total English culminate in a structured final speaking activity in the form of a survey, roleplay etc. Learners are given time to prepare what they are going to say and prompts to help them. The activities often involve pair and group work to maximise learners’ opportunities to speak in class. Many of the structured speaking activities are linked to the CEFR Can do statements.

- How to... boxes
There are regular How to... boxes throughout the course which focus on the words and expressions learners need to carry out specific functions. e.g ordering food in a restaurant.

- Communication pages
Communication pages feature at the end of each unit and engage learners in a variety of problem-solving tasks and activities. These give learners practice in a number of different skills including speaking.

- Photocopiable class activities
The photocopiable activities on the ActiveTeach and on the Resource Disc are also specifically designed to promote speaking practice.

Pronunciation

New Total English pays particular attention to pronunciation, which is integrated into lessons which present new language. The pronunciation syllabus includes word and sentence stress, weak forms, intonation and difficult sounds. The Pronunciation bank at the back of the Students' Books provides a summary of all pronunciation points in the book as well as a list of English phonemes, guidance on sound-spelling correspondences and weak forms. The ActiveTeach includes audio to accompany the Pronunciation bank. There is additional pronunciation practice in the Workbooks and Workbook Audio CD.

Listening

Listening is one of the most difficult skills to master and New Total English places particular emphasis on developing learners' confidence in this area. Listening texts include short scripted dialogues as well as longer, unscripted semi-authentic listening. There is additional listening practice in the Workbooks and the video clips on the ActiveBook and ActiveTeach components further enhance learners' confidence in understanding the spoken word.

- Scripted listening activities
Scripted listening activities include short dialogues as well as longer extracts including conversations, interviews and stories. There are lots of simple ‘Listen and check your answer’ exercises as well as longer, more challenging extracts where learners have to listen for specific information.

- Semi-authentic listening activities
As well as the more traditional scripted listening activities, New Total English also includes a range of semi-authentic listening texts, i.e. recordings of one or more people speaking in an unprepared, unscripted way, although they are aware of the relevant level and therefore have adapted their own language to a certain extent accordingly. Learners benefit from listening to a semi-authentic recording because the spontaneity of spoken English means that it is full of false starts, hesitations, redundancy and 'ungrammatical' sentences. Learners need to be aware of these features and they need to develop confidence in dealing with them in order to cope with listening in the ‘real world’.

- Video clips
New Total English provides a video clip to accompany each unit of the Students’ Book. The videos feature a range of authentic material from a variety of different sources including short films and clips from TV documentaries and drama. The video clips expose learners to real English and are designed to motivate learners to ‘raise their game’ in terms of developing their listening skills.

To make the material more accessible to learners, photocopiable activities for each video clip are available on the ActiveTeach and on the Resource Disc. There are additional interactive video exercises on the ActiveBook and ActiveTeach which students can complete in class or at home. The video clips are available on the ActiveBook which accompanies each Students’ Book and on the ActiveTeach. You can select the video clips when you use the discs in your computer, or you can play them in a DVD player.
Reading

Many learners need to be able to read texts in English – for their studies, for work or simply for pleasure – and New Total English recognises that reading is an extremely important skill that can have a beneficial effect on all aspects of language learning including vocabulary, spelling and writing.

New Total English encourages learners to read as much as possible – in most units there are at least two substantial reading texts – and care has been taken to introduce students to a wide range of text types as possible, from simple forms and advertisements to short texts from newspapers and magazines.

Reading texts are accompanied by a range of activities that are designed to check comprehension as well as develop key reading skills such as reading for gist, reading for specific information, guessing the meaning of words from the context and so on.

- Choice of texts
As with the listening material in New Total English, texts have been chosen for their intrinsic interest as well as for their usefulness in providing a vehicle for the particular grammar and vocabulary points in focus. Many of the texts have been adapted from authentic, real-life sources such as magazines and websites, and where texts have been adapted or graded, every effort has been made to remain faithful to the original text type in terms of content and style.

- Exploitation of texts
Each reading text in New Total English is accompanied by a number of exploitation exercises that have been carefully selected to develop learners’ reading skills. Activities include comprehension and vocabulary work as well as practice in dealing with different reading sub-skills such as reading for gist. There are also a number of jigsaw readings where learners work together and share information.

• Length and complexity
The length and complexity of the reading texts in New Total English get more challenging as the course progresses. At lower levels, the texts are very short and the emphasis is on training learners to read for specific information. At higher levels, learners are introduced to a greater range and variety text types and more emphasis is placed on textual analysis.

Writing

In these days of electronic media, it is easy to forget that writing is not simply speech written down – effective writing has all sorts of conventions that differ from speech and that are necessary to learn in one’s own language as well as in a foreign language.

New Total English pays particular attention to the important skill of writing. One of the most important new features of the revised edition is the Writing bank at the back of each Students’ Book which contains 10 – 12 lessons that focus on different types of writing – emails, postcards, formal and informal letters and so on. Each lesson also provides additional advice and guidance on different writing sub-skills such as punctuation, spelling and paragraph construction.

- Model text types
Each Writing bank lesson has a Can do statement which refers to the written output that students complete at the end of the lesson. The lesson usually starts with a warmer that engages students in the topic. Learners then go on to focus on a model of the text type and in most cases, there is some comprehension work to ensure that students are familiar with the content before they start working on the format and related sub-skills. The lesson always finishes with a contextualised written output.

- Writing sub-skills
One of the most important aspects of the Writing bank is that it examines the sub-skills of writing in detail. This is important as it helps learners to build on and develop their writing skills, rather than simply providing practice in writing. Among the sub-skills covered are punctuation, grammatical cohesion, paragraphing and features such as varying the vocabulary used to both enhance interest and ensure lexical cohesion.

- How to... boxes
How to... boxes are a particular feature of the Writing bank. They usually focus on a particular sub-skill of writing and in some cases on written conventions, such as email or letter layout, appropriate formality of language for the text type or order of presentation of the content (such as in a review).
New Total English places a strong emphasis on learner training and good study habits are encouraged and developed via the Lifelong learning boxes which are featured in many lessons. The Lifelong learning boxes provide useful tips and suggestions on how to continue learning outside the classroom.

**Defining what you mean**

If you don’t know the name of something in English, explain what you mean with these phrases.

- *It’s the thing that you use for eating soup.* (spoon)
- *It’s the stuff that you eat with turkey at Thanksgiving.* (stuffing)
- *It’s the person who runs the kitchen in a restaurant.* (chef)

Use thing for countable nouns, stuff for uncountable nouns and person for people.

**Revision and testing**

There are plenty of opportunities for revision in New Total English and language is constantly recycled throughout the course. At the end of every unit, there are special Review and practice pages which take the form of mini-progress checks, enabling learners to identify areas where they might need further practice. Interactive versions of the activities on these pages are available on the ActiveBook and ActiveTeach. The Workbook and accompanying Audio CD provide further practice in grammar, vocabulary and skills covered in the corresponding Students’ Book. The Workbook is available in with key and without key versions.

For learners who are really serious about making rapid progress in English, MyTotalEnglishLab provides the perfect solution. This exciting component features the Workbook exercises in digital format as well as tips and feedback on common errors.

Regular progress and achievement tests are provided on the ActiveTeach, Resource Disc and MyEnglishLab. MyEnglishLab also includes automatic marking and a gradebook.

While New Total English is not an examination preparation course, a student who has, for example, completed the Upper Intermediate level would have sufficient language to attempt the Cambridge ESOL FCE (First Certificate in English) examination. Many of the exercises in the New Total English Students’ Books and other components are similar in format to those found in the Cambridge ESOL main suite examinations but specific training is required for all EFL examinations and we would strongly recommend this.

**New Total English and the CEFR**

New Total English is correlated to the CEFR (Common European Framework of Reference). Please see the New Total English website: [www.pearsonELT.com/newtotalenglish](http://www.pearsonELT.com/newtotalenglish) for details of CEFR Can do statements for each level of the course.
